# ABOUT US

---

Concord United Products Pvt. Ltd.

Concord United Products established in the year 2000.

Leading manufacturer of die assembly and blades for Under-water Pelletizers and Water-ring Pelletizers. We manufacture extrusion dies & blades for all major brands like GALA (Maag)<sup>®</sup>, BKG-Nordson<sup>®</sup>, ECON<sup>®</sup>, FILTEC<sup>®</sup>. We export our products to many customers in Europe, USA, Mexico, Brazil, Turkey, Middle East, Russia and S.Korea through our business partners in various countries. We also produce blades and dies for EREMA<sup>®</sup> & NGR<sup>®</sup> recycling lines.

Concord manufactures Tungsten Carbide inserted Dies for all Under Water Pelletizers. Our Dies have been installed in many major compounders like Lyondell Basell (A.Schulman), Ingenia, Washington Penn, Taghleef, Astra Polymers, Ravago, Elastron, etc. in their plants. We are supplier of choice for Dies, Blades and Blade Holders to all major compounders in India. Currently, we manufacture close to 400 Die assemblies & 3,00,000 blades in a year.

To ensure quality of our products, we use best quality of raw material available. All our blades are manufactured using High Speed Steel sourced from Bohler-Austria and heat treated by Vacuum Hardening process. Tungsten Carbide is procured from Kennametal for our dies. We import CPM10V from the US.

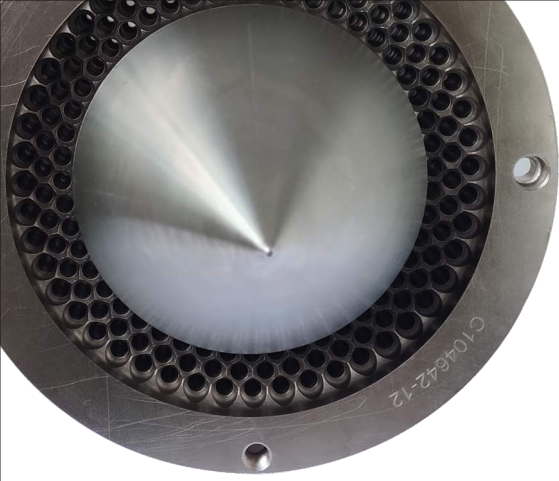

Due to all this and our commitment to quality and timely delivery at affordable prices, ECON<sup>®</sup> chose us to be an OEM supplier for all their Blade requirements in 2013. We continue to supply blades to ECON GmbH<sup>®</sup> and ECON<sup>®</sup> INDIA.

## **Underwater Pelletizing Die**

- We offer underwater pelletizing dies with Tungsten Carbide inserts and Bushes for GALA®, BKG®, Starlinger®, Sphero-Automatic®.

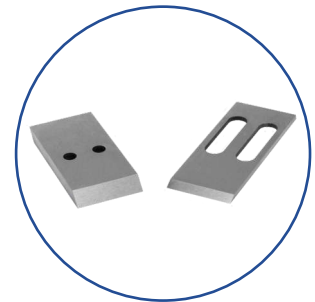

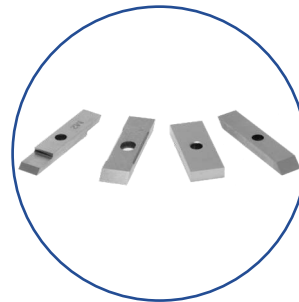

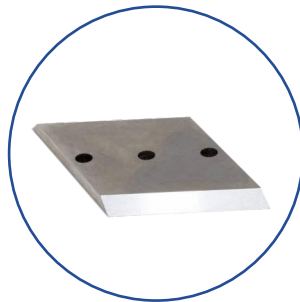

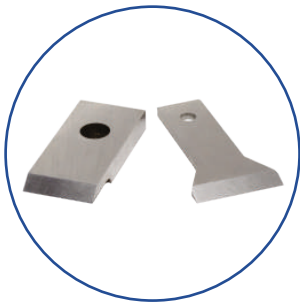

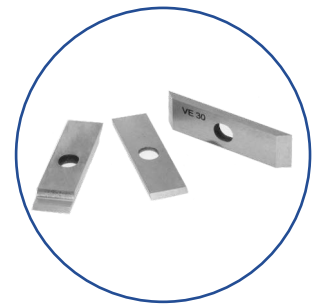

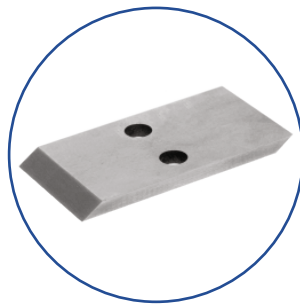

## **Water ring Pelletizing Die**

- Our Water ring Pelletizing dies are made out of D2 steel, vacuum hardened for major brands like NGR®, GAMMA Meccanica®, Tecnova®, etc.

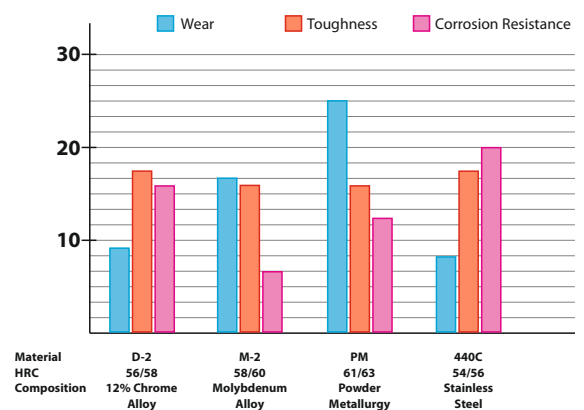

# Pelletizing Blades for Underwater and Water ring Pelletiser

- Concord offers blades for major compounding lines like GALA®, BKG®, ECON®, Starlinger®.
- Our blades deliver excellent cutting performance with long life due to its superior wear resistance.
- We use HSS and PM grade steels from reputed manufactures like BOHLER® Austria, Erasteel® France, Edelstahl® Germany.
- All our blades are vacuum heat treated, which provides consistent performance over the life of blade.
- Commonly used material for pelletizing blades: D2, M35, M2, & PM steel.
- We can manufacture blades to your specific requirements.

**MATERIAL COMPARISON CHART**

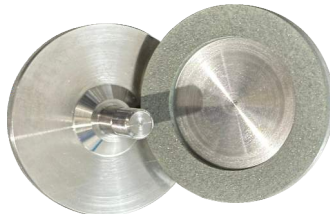

## Cutter Hub Holders & Grinding Tools

- We offer cutter hub and holders for GALA®, BKG®, Sphero®.
- Our product range includes 4 spoke, 6 spoke, 8 spoke and 12 spoke holders.
- Concord offers Die face grinding tools and holders for GALA®, BKG® & ECON®.
- All our blade holders and hubs provide excellent corrosion and wear resistance.
- We can manufacture hubs to your specific requirements.

## Grinding Tools

## Cutter Hub Holders

## Recycling Knives

- We offer recycling knives for EREMA® & NGR lines.
- We offer knives in D2 and M2 grade steel.

## Shredder Blocks

- We offer different sizes and shapes like Square, Octagon & Round.
- Materials we offer: D2 and D2 with TC inlays.

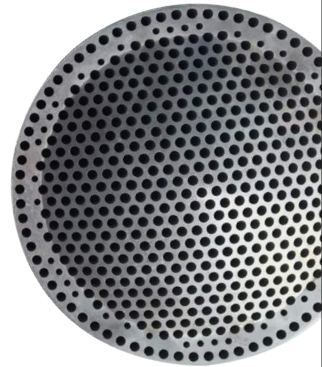

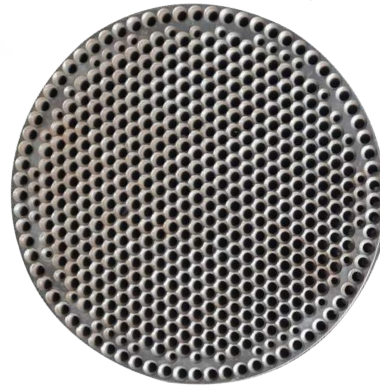

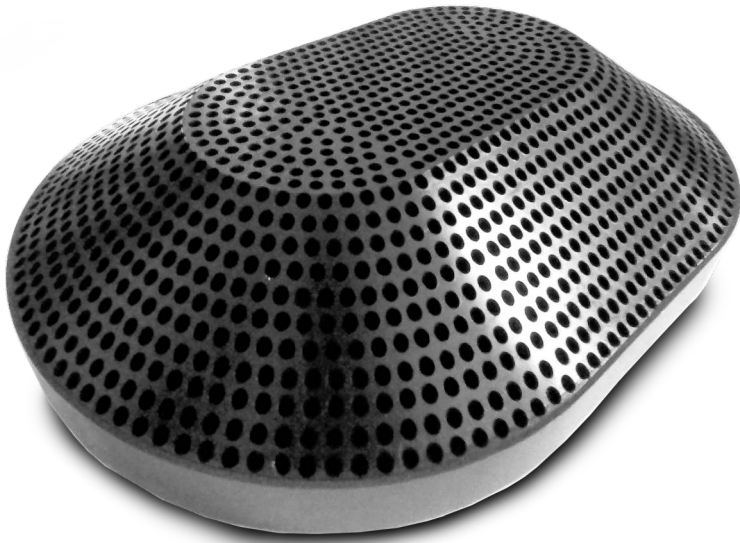

## Granulator and Shredder knives

- We offer a wide range of Granulator knives and shredder knives :
- We offer different styles which include single sided, double angle, countersunk, threaded and slotted holes.
- Materials we offer: D2 and any other material as per customer requirement.
- Our technical department can reverse engineer and improve your blades for improved performance.
