A solution for all pelletizing needs

CONCORD
United Products Pvt. Ltd.

ABOUT US

Concord United Products Established in the Year 2000. Specializes in the manufacture of under water and water ring die plates and pelletizing knives for all major brands such as GALA (Maag)®, BKG-Nordson®, Starlinger® our products are exported to customers in Europe, USA, Mexico, Brazil, Turkey, Egypt, Middle East, Russia, Thailand, Asia and South Korea through our global network of partners. We also provide crusher blades, shredder blocks and dies for NGR® recycling lines.

Concord manufactures tungsten Carbide inserted dies for all types of underwater pelletizers. Our dies are installed in major compounders including Lyondell Basell (A. Schulman), Ingenia Polymers, Washington Penn, Taghleef, Astra Polymers, Cabot Performance, Ravago, Elastron, Green Pet, DDEV - plastics, Coroplast and among others. We are a trusted supplier of dies, blades and blade holders for leading compounders in India, manufactring approximately 450 die assemblies and 4,50,000 blades for pelletizing and recycling annually.

To ensure the highest quality, we use premium raw materials from trusted sources like Bohler - Austria, Boehlerite and Swiss Steel. Our blades are heat-treated using a vacuum furnace.

CONCORD
Blades and Dies

Underwater Pelletizing Die

- We offer underwater pelletizing dies with Tungsten Carbide inserts and Bushes for GALA®, BKG®, Starlinger®, Sphero-Automatic®.

Water ring Pelletizing Die

- Our Water ring Pelletizing dies are made out of D2 steel, vacuum hardened for major brands like NGR®, GAMMA Meccanica®, Tecnova®, etc.

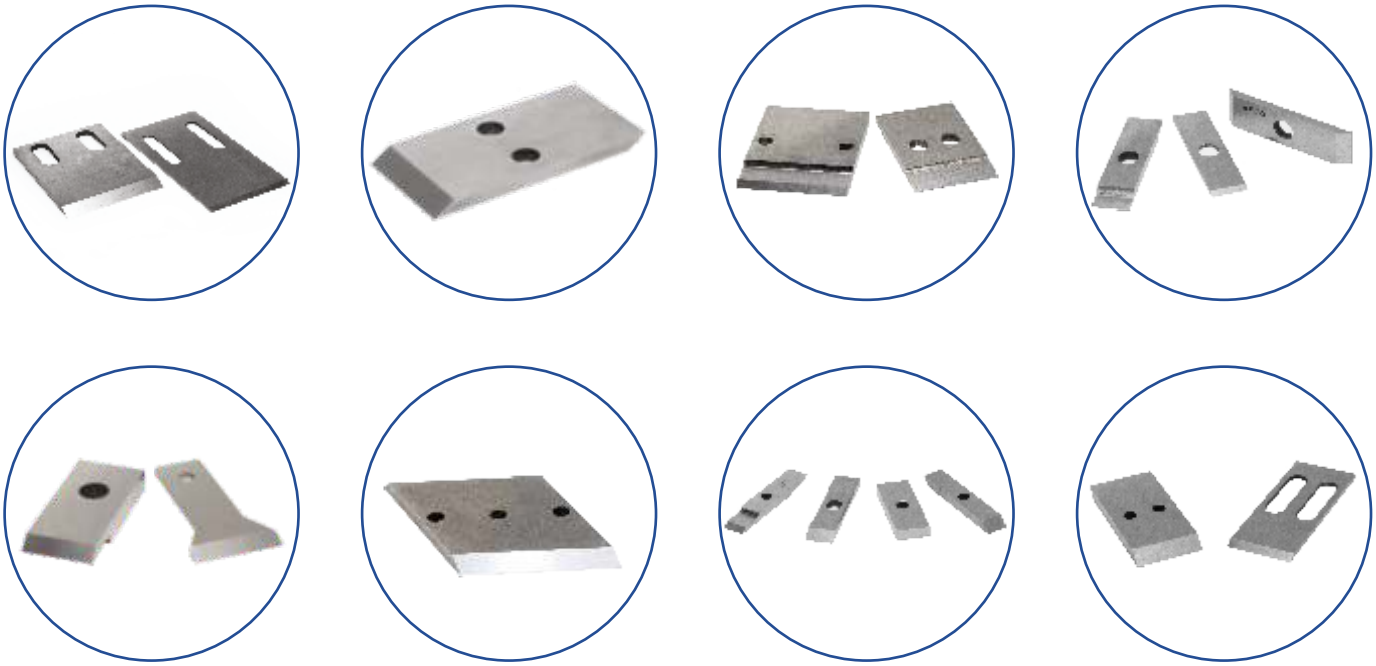

Pelletizing Blades for Underwater and Water ring Pelletiser

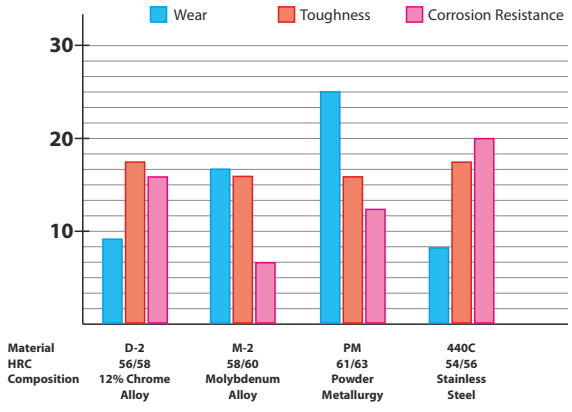

CONCORD
Blades and Dies

- Concord offers blades for major compounding lines like GALA®, BKG®, ECON®, Starlinger®.
- Our blades deliver excellent cutting performance with long life due to its superior wear resistance.
- We use HSS and PM grade steels from reputed manufactures like BOHLER® Austria, Erasteel® France, Edelstahl® Germany.
- All our blades are vacuum heat treated, which provides consistent performance over the life of blade.
- Commonly used material for pelletizing blades: D2, M35, M2, & PM steel.
- We can manufacture blades to your specific requirements.

Recycling Knives

- We offer recycling knives for NGR lines.
- We offer knives in D2 and M2 grade steel.

Shredder Blocks

- We offer different sizes and shapes like Square, Octagon & Round.
- Materials we offer: D2 and D2 with TC inlays.

Granulator and Shredder knives

- We offer a wide range of Granulator knives and shredder knives :
- We offer different styles which include single sided, double angle, countersunk, threaded and slotted holes.
- Materials we offer: D2 and any other material as per customer requirement.
- Our technical department can reverse engineer and improve your blades for improved performance.
